DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3, 4, 8, 9, 11, 12, 15 & 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 3, line 6: “the contacting bags” lacks proper antecedent basis.
- Claim 4, line 5: “the hook portion of the fixing member” lacks proper antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 are rejected under 35 U.S.C. 102(b) as being anticipated by Rubel (US 3,468,100).

- With respect to claim 1, Rubel discloses a bagging machine that meets all of applicant's claimed subject matter, in particular, the bagging machine of Rubel comprises: a charging member (31) attached to a base (24) for holding a plurality of bags (25), and a housing pivotally supporting the base (24) via a shaft (26);

wherein the housing is formed with an opening (14) and an end plate (21) presses to hold the plurality of bags (25).

- With respect to claim 2, the bagging machine of Rubel further comprises a lever with an expanding arm (16) and a counter balance weight.
- With respect to claim 3, Rubel discloses a bagging machine that meets all of applicant's claimed subject matter, in particular, the bagging machine of Rubel comprises: a charging member (31) attached to a base (24) for holding a plurality of bags (25), a housing pivotally supporting the base (24) via a shaft (26); wherein the housing is formed with an opening (14) and an end plate (21) presses to hold the plurality of bags (25), and a fixed member (41) that is fully capable of being fixed to any fixing member on a counter of a store.
- With respect to claims 5, 7 & 8, the opening (14) in the bagging machine of Rubel is formed with at least two inclined plates (FIG. 1).
- With respect to claims 6, 10, 11, 13, 14 & 15, the bagging machine of Rubel further include a holding frame (35).

Allowable Subject Matter

5. Claims 4, 9, 12 & 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
